

Specialities in Motion

❖ **Quality Policy**

- All the activities of the VELOX group are aimed at fulfilling or even exceed the requirements of the customers.
- Complying with the principles of product stewardship, by providing the customers and trading partners alike with the necessary information about the risks and dangers of the products, to ensure the safe handling of the products we trade.
- An impeccable quality of transport and logistics services by us and our business partners.
- A strict follow-up and analysis of claims.
- Constant supply of specialised advanced and continuing trainings for our employees, in order to improve their competences and performances.
- Creating a safe work environment, in order to avoid accidents to our employees and visitors.
- Protection and security of the company's properties from destruction and theft.
- Check whether our contractual partners comply to the legal requirements, but also to the standards of VELOX.
- Regularly check the effectiveness of our company principles and objectives through a programme of internal audits.
- Maintaining our equipment according to the legal requirements.
- Compliance with legal requirements.

❖ **Environmental Policy**

- An environmentally friendly quality of transport and logistics services by us and our business partners.
- In all activities at VELOX, environmental protection aspects are also taken into consideration, in order to have the lowest possible environmental impact.
- Economical use of natural resources in order to protect the environment.
