

## Press Release

# PrimeTec® PEEK very high flow available

Hamburg, 28. February 2019

**VELOX GmbH, an IMCD company, one of Europe's leading solution providers of raw material specialities for the plastics, composites, additives and paint & coatings industries, presents a new grade for its own brand PrimeTec® for highly customised technical plastics solutions. First customers have already started sampling this grade.**

PrimeTec® PEEK 110G is a newly developed grade in the VELOX PrimeTec® PEEK range. It is a grade with a very high flow as well as high temperature resistance; a high level of stiffness and strength along with excellent chemical resistance in aggressive environments.

The grade is well suited to micro-parts, and to thin-wall applications where long flow paths are unavoidable. This offers considerable freedom in design. However, the material can also be used as the base for the manufacture of high filled compounds for a wide range of industrial applications including metal replacement.

"PrimeTec PEEK 110G helps to provide a more stable production process and contributes towards a reduction in manufacturing costs", explains Ekaterina Boës, Product Manager at VELOX.

VELOX offers the PrimeTec PEEK range in nearly all European countries.

### **About PrimeTec®**

PrimeTec® is VELOX' own brand for highly customised and application-specific technical plastics solutions. In addition to our vast portfolio of partner products we are also developing new tailored solutions or modifications of existing products that our clients otherwise cannot find on the market or where they require an alternative.

### **About VELOX GmbH:**

VELOX GmbH is a leading pan-European distributor of raw material specialities and solutions provider for the plastics, composites, additives, rubber, paints and coatings industries.

Founded in 1993, VELOX is headquartered in Hamburg, Germany. The company has 21 offices throughout Europe and employs over 230 experienced employees to support its customers across Europe and beyond. As of September 2018, VELOX is an IMCD company.
