

PERMITTED APPLICATIONS

[applications specified in the list below and for which the Medical Device shall not be introduced into the human body or shall not replace any epithelial surface or the surface of the eye for more than 30 days]

Rilsan® MED / Rilsamid® MED / Pebax® MED Currently Permitted Applications

Ablation catheter
Abutment's components for dental fixture (No direct contact with blood, gums and bones)
Angiographic catheter
Angiography, balloon tubing, over the wire tubing, multi layer tube
Angioplasty catheter
Balloon
Balloon Catheter
Balloon dilation catheter
Bare metal stent
Biliary catheter
Biliary stent
Biliary stent placement catheter
Biopsy forceps
Breathing mask
Bronchial Stent catheter
Cannula
Caps
Cardiac ablation catheter
Cardiovascular catheter
Carotid stent system
Catheter delivery
Catheter handle, mechanism
Catheter hubs
Catheter luer fitting
Catheter shaft
Catheter sheath introducer
Catheter tips
Catheters for regional anesthesia
Catheters Related
Closure system
Colonic stent balloon catheter
Container/Casing for tooth Cleaning Instrument
Cooled ablation catheter
Coronary Intravascular Optical coherence tomography OCT
Coronary Intravascular Ultrasound IVUS
Coronary stent system
Cutting balloon thrombectomy catheter
Epidural catheter

CVC
 CVCC
 Cystometry catheter
 Dental orthosis
 Diagnostic cardiology catheter
 Diagnostic catheter
 Dilator stent
 Dilatation catheter
 Dilatation catheter balloon
 Dilator and sheath
 Dilator pusher and tube
 Dilators
 Drainage catheters
 Drug eluting stent
 Drug Eluting Stent delivery catheter
 Duodenal stent
 Electrophysiology catheter
 Electrophysiology diagnostic catheter
 Embolectomy catheter
 Embolism filter
 Endovascular aortic stent graft delivery catheter
 External device to fix tubing, device etc
 Eye surgery instruments.
 Fitting to treat breast cancer
 Forceps catheter, guidewire
 General components in Medical Machinery
 General Medical tubing (Air, fluids, etc)
 Guide catheters
 Guidewire catheter
 Guiding catheters
 Hearing Aids
 High pressure catheter
 Hypotube monorail catheter
 Hysteroscopic thermal ablation device
 Iliac stent system
 Injector
 Intra vaginal devices (repeated uses over long period of
 time is not included)
 Introducer needle, catheter
 Mapping catheter
 Medical Packaging : Bags, films, Boxes, Bottles
 Microcatheter
 Mold to produce contact lenses
 Nebulizing Chamber
 Neuro vascular

Hubs, Fitting, Clamps, Luer Lock

Wheels, brackets, handles, ... Electrical dampers
 Peristaltic pump, Conveying tubes

Intra Uterine Devices, Transvaginal suture
 capturing device, Intravaginal thermometer,
 Gynecological Instrument

Neurovascular catheter
Occlusion catheter
Other Dental Instruments
Over the wire catheter
Percutaneous Transluminal Angioplasty (PTA) catheter
Pericardial drains
Peripheral Dilation catheter
Peripheral vascular
PTCA balloon catheter
PTCA Dilatation Catheter
Pulmonary biopsy forceps
Radiofrequency ablation catheter
Safety Syringue
Sclerotherapy needle catheter
Sleep apnea devices
Solute / Blood bags structure
Sonographic imaging catheter
Sphincterotome
Steerable diagnostic catheter
Stent delivery introducer and sheath catheter
Stent delivery balloon catheter
Stent delivery catheter
Syringe cartridge
Teeth alignment device (Overnight usage)
Temperature ablation catheter
Temporary Transplant teeth (Max 15 days)
Therapeutic infusion systems
Thrombectomy catheter
Tracheobronchial stent delivery catheter
Tracheostomy
Transbronchial aspiration needle device
Transvaginal anchor system
Transvaginal suture capturing device
Trocar delivery catheter
Ultrasound imaging catheter
Urethral sling
Urology catheter
Valves (not in contact with Fluid)
Vena cava filter
Vials
Wire guided balloon dilator
